We're Learning Resources®, and we've been helping parents and teachers build generations of amazing kids for over 35 years. From ABCs and 123s to fine motor and STEM skills, our educational toys offer kids the building blocks they need to succeed in school and develop a lifelong love of learning. Discover countless ways to learn through play with our award-winning products.

Learning Resources® Inc was founded in 1984 in Chicago, Illinois, USA. 10 years later, in 1994, our learning journey began as Managing Director Dennis Blackmore founded Learning Resources Ltd. Located in King's Lynn, Norfolk, our purpose was to serve the UK, European markets, the Middle East, Africa and India.

Over many years the company continued to grow and, in 2006, Learning Resources acquired Educational Insights, based in Los Angeles, California.

Our heritage and the trusted relationships we have built over the years are the cornerstone of our success, enabling us to continually evolve as our business continues to grow, meeting the needs of teachers, parents and other mentors.

For over 30 years we've been the leader in educational toys and games, with more than 1,000 products sold in over 80 countries. Our toys are designed to help children build key educational skills... and get ready to take on the world!

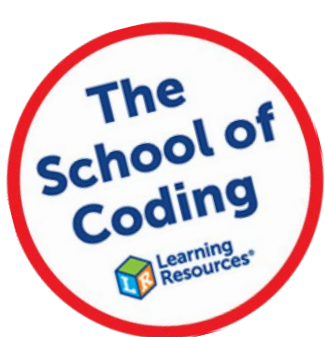

Our versatile products include play and learning activity sets, manipulatives and games that build foundational skills in all subject areas through exploration, creativity, imagination and fun. In addition, we offer simple technology products and teacher resources to support the delivery of education.

Our core values form the foundation of our unique culture, an integral part of who we are and what we do, they enable us to commit to developing products with:

Quality - We believe in creating a quality product that will enable a child to take ownership of their learning and succeed.

Passion - We have passion in what we do and the products we sell, enabling us to deliver a superior service and product offering.

Fun - In school, at home or in the workplace, we aim to inspire a life-long love of learning. Put simply, education can change a child's life - we love learning and we hope you will too.
